

Company / Club Registrations

IMPORTANT NOTE:

Registering as a group enables the **invoice to be made out to a legal entity (association or business) for all or part of the cost of registration and options.**

This may be important in the context of a club or company outing. For example, a company may choose to take on board the cost of its employees' registration, while having them settle their own day passes or additional options.

To create a group, the leader must contact the event organiser by email: contact@triathlondeauville.com

To be considered as a group, regardless of their chosen race, there must be a minimum total of 15 participants.

ONCE THE GROUP HAS BEEN FORMED:

STEP 1: Each member of the team must access the registration platform:

www.njuko.net/tid20120

Then access the « GROUPS » tab on the top menu.
